EDUCATION

University of Wisconsin-Madison **B.B.A. in Management Information Systems**

Madison, WI • Sep 2009 - May 2013

WORK EXPERIENCE

Northwestern Mutual **IT Manager**

Milwaukee, WI • Jul 2020 - Present

- Lead IT operations for a **Fortune-100 financial-services regional hub**, managing **14 IT staff** across **4 functions (helpdesk and end-user support, systems and network administration, and identity and collaboration platforms)** for **4,500 internal**

users across the HQ campus plus 9 regional offices.

- Authored a **3-year IT roadmap** covering M365 modernization, an **Entra ID** migration from **on-prem AD**, and ServiceNow rollout, securing executive sponsorship and delivering 2 of 3 roadmap phases on time and on budget.
- Run IT operations against ITIL 4 SLAs on ServiceNow, sustaining **96%** P1 resolution within **4 hours** across **28,000** tickets per year and maintaining **91%** CSAT on quarterly service surveys.
- Manage an annual IT budget of **\$5.4M** across **capex and opex**, negotiating 3 MSP and licensing cycles that saved **\$720k/year** while expanding coverage for hybrid endpoints.
- Partner with the CISO on access controls, patch cadence, endpoint security, and audit readiness for **SOC 2 Type II** and **NAIC cybersecurity examinations**, clearing 2 back-to-back audits with **zero** IT findings.
- Sponsored 7 cross-functional IT projects including a regional office buildout, an ERP module rollout, and an **M&A IT integration** for a **200-person** acquisition, delivering the integration cutover on schedule with **zero** P1 incidents.
- Primary IT point of contact for 8 business units and the **regional VP forum**, running **quarterly IT business reviews** and standing leadership 1:1s, with the CFO signing off on all 3 IT budget cycles under my tenure.

Aurora Health Care **IT Manager**

Milwaukee, WI • Jul 2015 - Jun 2020

- Owned business continuity and disaster recovery for the **regional medical group**, including a warm-standby DR site and a **4 hours RTO / 1 hour RPO** standard across clinical applications, with **quarterly** failover tests all passing.
- Authored or updated **22** IT policies covering acceptable use, BYOD, access, change management, and incident response, adopted as the **regional IT standard** and referenced in 2 annual HIPAA audits.
- Hired **11** IT staff across helpdesk, sysadmin, and network roles over 4 years, mentored 4 promotions to senior IT roles, and sustained **91%** retention across the team.
- Worked closely with **Clinical Operations, Finance, HR, and Compliance** teams across **14** clinic sites, authoring **28** SOPs and runbooks that shaped the regional operating baseline and onboarding 9 new-hire IT engineers.
