

PROFILE SUMMARY

- IT Support Specialist with 6 years of experience supporting enterprise end-user computing environments across e-commerce, web hosting, and corporate IT, specializing in endpoint deployment, identity lifecycle, and white-glove user support.
- Solid technical background across ticketing (ServiceNow, Jira Service Management), endpoint management (Microsoft Intune, Windows Autopilot), identity (Active Directory, Entra ID), productivity suites (Microsoft 365), remote support (BeyondTrust (Bomgar)), and scripting (PowerShell, Bash) with strong fundamentals in ITIL service-management practice, ticket triage discipline, and audit-ready documentation.
- Deep practice in first-touch resolution, least-privilege account hygiene, zero-touch endpoint deployment, and white-glove executive support, leveraging methodologies such as ITIL incident and request workflows and knowledge-centered service to drive responsive, well-documented, and end-user-loved IT support.
- Engaged collaborator working cross-functionally with Sysadmin, Security, HR, and Facilities teams in ITIL-aligned service-desk operations, contributing to onboarding waves, hardware refresh cycles, and post-incident retrospectives with a user-first, ownership-first mindset.
- Emerging leader who shares technical excellence and fosters a culture of customer-obsessed service and runbook discipline through KB authoring and shadow-and-handoff coaching, while leading tier-1 mentorship sessions and authoring widely adopted onboarding and offboarding playbooks.

TECHNICAL SKILLS

Ticketing & ITSM:	ServiceNow, Jira Service Management, Zendesk, Freshservice, Spiceworks
Endpoint & MDM:	Microsoft Intune, Windows Autopilot, Jamf Pro, SCCM, MDT, BitLocker, FileVault
Identity & Access:	Active Directory, Entra ID, Okta SSO, Google Workspace, ADUC, MFA, Conditional Access
Productivity & Mail:	Microsoft 365 (Outlook, Teams, SharePoint, OneDrive), Exchange Online, Zoom, Slack
Remote & Endpoint Tools:	BeyondTrust (Bomgar), TeamViewer, Splashtop, Quick Assist, RDP, AnyDesk
Networking & Connectivity:	Cisco AnyConnect VPN, Meraki Wi-Fi, DNS, DHCP, TCP/IP, basic switch port checks, printer queues
Security & Compliance:	CrowdStrike Falcon, MFA enforcement, phishing-report workflows, BitLocker recovery, HIPAA basics
Scripting & OS:	PowerShell, Bash, Python (basic), Windows 10/11, macOS, ChromeOS, iOS/Android MDM

EDUCATION

Arizona State University B.S. in Information Technology

Tempe, AZ • Sep 2016 - May 2020

WORK EXPERIENCE

Carvana Senior IT Support Specialist

Tempe, AZ • Sep 2022 - Present

- Owned end-user support across the corporate IT service desk in an online-retail environment serving 3,200+ employees, leading day-to-day operation across ticket triage, endpoint deployment, and identity and access support across 9 office and inspection-center sites with ServiceNow as the system of record.
- Ran endpoint imaging and deployment for 3,400+ Windows and macOS endpoints using Microsoft Intune and Windows Autopilot, applying zero-touch enrollment, compliance baselines, and BitLocker key recovery workflows, cutting provisioning time from 4 hours to 35 minutes per device.

- Managed account lifecycle and access provisioning for **3,200+** user accounts across **Active Directory, Entra ID, and Okta SSO**, driving **joiner/mover/leaver** flows from HR feeds, group-based application access, and MFA enforcement with self-service password resets, reducing access-related tickets by **44%**.
- Diagnosed and resolved daily connectivity issues across **Meraki Wi-Fi**, Cisco AnyConnect VPN, DNS/DHCP resolution, conference-room AV, and VoIP phone provisioning for **3,200+** daily users, lifting first-touch resolution from **58%** to **82%**.
- Led hardware refresh and peripheral support for **1,150** laptops and monitors, running vendor RMAs through **Dell ProSupport**, asset tagging in Snipe-IT, plus conference-room and printer-fleet maintenance, delivering **99.4%** inventory accuracy at quarterly audit.
- Built the team's service-desk knowledge base in **ServiceNow**, authoring and maintaining **220+** KB articles plus onboarding playbooks for new hires and self-service walkthroughs in **SharePoint**, lifting helpdesk survey scores to **4.8 / 5 CSAT** across the past 4 quarters.
- Owned the IT side of onboarding and offboarding for **380+** new hires and **190** offboardings, coordinating **day-1 laptop imaging**, HR-synced account provisioning, and badge / MFA / shared-drive setup, achieving **100%** access revocation within **1 hour** of termination.

GoDaddy **IT Support Specialist**

Tempe, AZ • Aug 2019 - Aug 2022

- Worked the tier-1 and tier-2 service-desk queue at a steady **65 to 90** tickets per week, applying **ITIL triage**, warm hand-offs to networking and security, and end-of-shift queue grooming, lifting mean time to resolve from **2.7 hours** to **48 minutes** over the first 12 months.
- Owned end-user software and patch deployment through **Intune app rings**, monthly Patch Tuesday rollouts, and break/fix follow-ups within the maintenance window, holding endpoint patch compliance at **96%** within **14 days** across the user fleet.
- Ran end-user security workflows including **phishing-report intake**, MFA enrollment for **1,800** staff, and lost-device wipe procedures, contributing to a **38%** drop in repeat-clicker reports across **4** quarters.
- Worked closely with **Sysadmin, Security, HR, and Facilities** teams to coordinate **quarterly hardware refreshes**, executive onboarding, and office-move IT logistics, authoring **14** helpdesk runbooks that shaped the team's standard playbook and mentoring **4** tier-1 technicians through their first ticket queues.
